

Mixing Technology

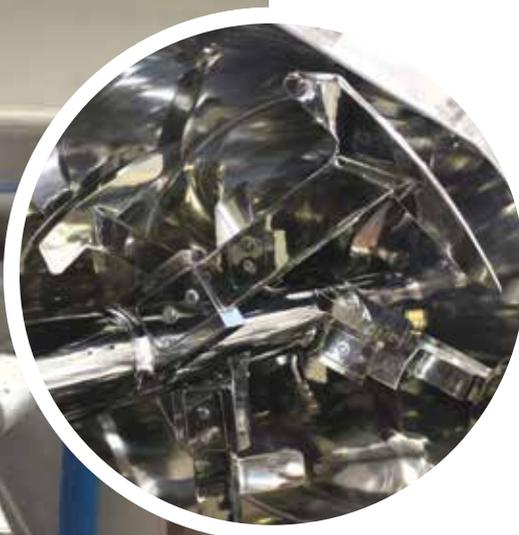

Since the 1980s, MAP® has developed a unique range of Mixers which meets the requirements of every user offering a professional solution for virtually every demand from the market.

The main focus of MAP® is on providing industrially manufactured, top quality products at an attractive price.

**The most
suitable
solutions for
every mixing
task**

To achieve consistent product quality MAP® applies the appropriate mixing technology for a specific application:

- Mixing
- Homogenising
- Moistening
- Coating
- Crumbling
- Drying
- Granulating
- Solidifying
- Cooling
- Heat treatment
- and more.....

Environmental Technology

Profound knowledge of mixing and process technology enables MAP® to identify the most suitable solution for any application to virtually all industries.

Expertise you can rely on

Extensive testing in MAP®-owned laboratories all over the world and a vast field of applications are the foundation of specific process competence gained on the job. MAP®'s solutions ensure durability of mixing vessels and tools, compliance with international quality and safety standards, as well as professional after-sales service.

MAP® is the ideal choice to match market needs in terms of quality, price, maintenance, safety and environmental protection. All MAP® products are manufactured from tried and tested standard components.

The main focus of MAP® is on offering industrially manufactured top quality products at an attractive price. WAMGROUP®'s worldwide sales and service network guarantees professional and competent advice on the spot, as well as smooth order management and prompt spare parts supply.

We consider our customers as our partners. Teaming up with our clients in problem solving is crucial to MAP®.

Test facilities

Our state-of-the-art test laboratories include equipment and accessories which enable us to perform mixing tests with a variety of bulk materials. The experimental arrangements provide maximum simulation of real industrial processes. Test procedures follow the logic of real applications in genuine operating conditions.

Our competent staff will be delighted to assist you in carrying out custom-designed tests according to your individual requirements. The test results are captured on HD video, while test samples are stored in our lab archives for internal reference.

01 In-house Development and Manufacturing

All our products are developed, tested, manufactured and installed by our own staff. It is our aim to provide total assurance in terms of quality and delivery time.

- Certified manufacturing processes
- Standardised components and production methods
- Vast experience in selecting materials and components
- State-of-the-art production

03

02 Commissioning and Service

- Qualified and reliable installation, start-up and maintenance service
- Qualified operator training
- Compliance with relevant safety standards
- Machine rental service

03 Spare Parts

A worldwide service concept ensures continuous long-term use of your investment. Nevertheless, our machines and equipment are developed for long life cycles. They excel through a particularly low requirement on maintenance. A large number of machines have been operating for more than 30 years. Our perennial target is to provide all spare parts within a reasonable period of time.

QUALITY
LEVEL

WBHV

Batch-type Single Shaft Mixers

- Single shaft ploughshare, blade-type or paddle tools
- Net capacity from 20 to 17,500 litres per batch

WBHT – WBHP

Batch Mixers with 60° or 15° Bombay Discharge Door

- Single shaft ploughshare, blade-type or paddle tools
- Net capacity from 150 to 10,500 litres per batch

PRODUCT RANGE

WAHV - WAHF

Continuous Single Shaft Mixers

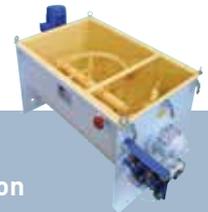

- Capacity from 0.2 to 1,000 m³/h
- Single shaft ploughshare, blade-type or paddle tools

WBN

Tubular Batch-Type Ribbon Blenders

- Extra heavy-duty single shaft tubular ribbon blender
- Net capacity from 20 to 17,500 litres per batch

WBR

Batch-type Ribbon Blenders

- Single shaft U-trough blender
- Net capacity from 20 to 4,800 litres per batch

MLH

Laboratory Mixers

- Single shaft ploughshare, blade, paddle or ribbon screw, mixing and blending tools
- Net capacity from 1.5 to 38 litres

MESC

Twin Shaft Paddle Mixers & Dust Conditioners

- Twin shafts with paddles
- Capacity from 3 to 90 m³/h

DUSTFIX® CLAYGRAN® WETDUST®

Dust Conditioners

- Single shaft conditioners with special chamber and tools
- Capacity from 5 to 80 m³/h

FEEDMIX®

Molasses Mixers

- Single shaft continuous molasses mixers with special mixing chamber and tools
- Capacity from 10 to 40 m³/h
- Mixtures with up to 20% of molasses

WETMIX®

Mortar Mixers

- Single shaft mixers with special mixing chamber and tools
- Capacity from 0.5 to 6 m³/h

PREMIX®

Mortar and Cement Slurry Mixers

- Single shaft with special chamber and tools
- Net capacity 80 m³/h

Committed to problem solving

We are committed to providing product specialisations, accessories, options and specific process know-how that ensure solutions tailored to users' needs.

Perfect match between product and application

We design our machines according to our customers' process requirements.

To comply with the demands of a variety of industries we offer our mixers in different designs, along with a wide choice of accessories.

Large inspection door and easy-to-clean interior

Teflon® liner

Bomb-bay discharge

Decompression control panel

Pneumatic sampling device

Choppers, liquid injectors, temperature jacket

Replaceable anti-wear liner

304L / 316L stainless steel internal polishing

The MAP[®] Plus

-  **Maximum quality mixtures in short mixing time**
-  **Enhanced production thanks to durable low maintenance machine design**
-  **High productivity - low energy consumption**

High quality MAP[®] solutions

Process engineering know-how

Vast experience in handling all kinds of bulk materials

Mixing tools adapted to product properties

Carefully selected materials

Application-oriented mixer design

Ancillary equipment supply

Global Presence

Our global subsidiary network enables us to supply a comprehensive range of mixers that fully meets customer requirements all over the world.
